

DOWN UNDER DIVE PASSENGER NUMBERS

Peak of 46,233 departures in 2023, 2026 = H1 only

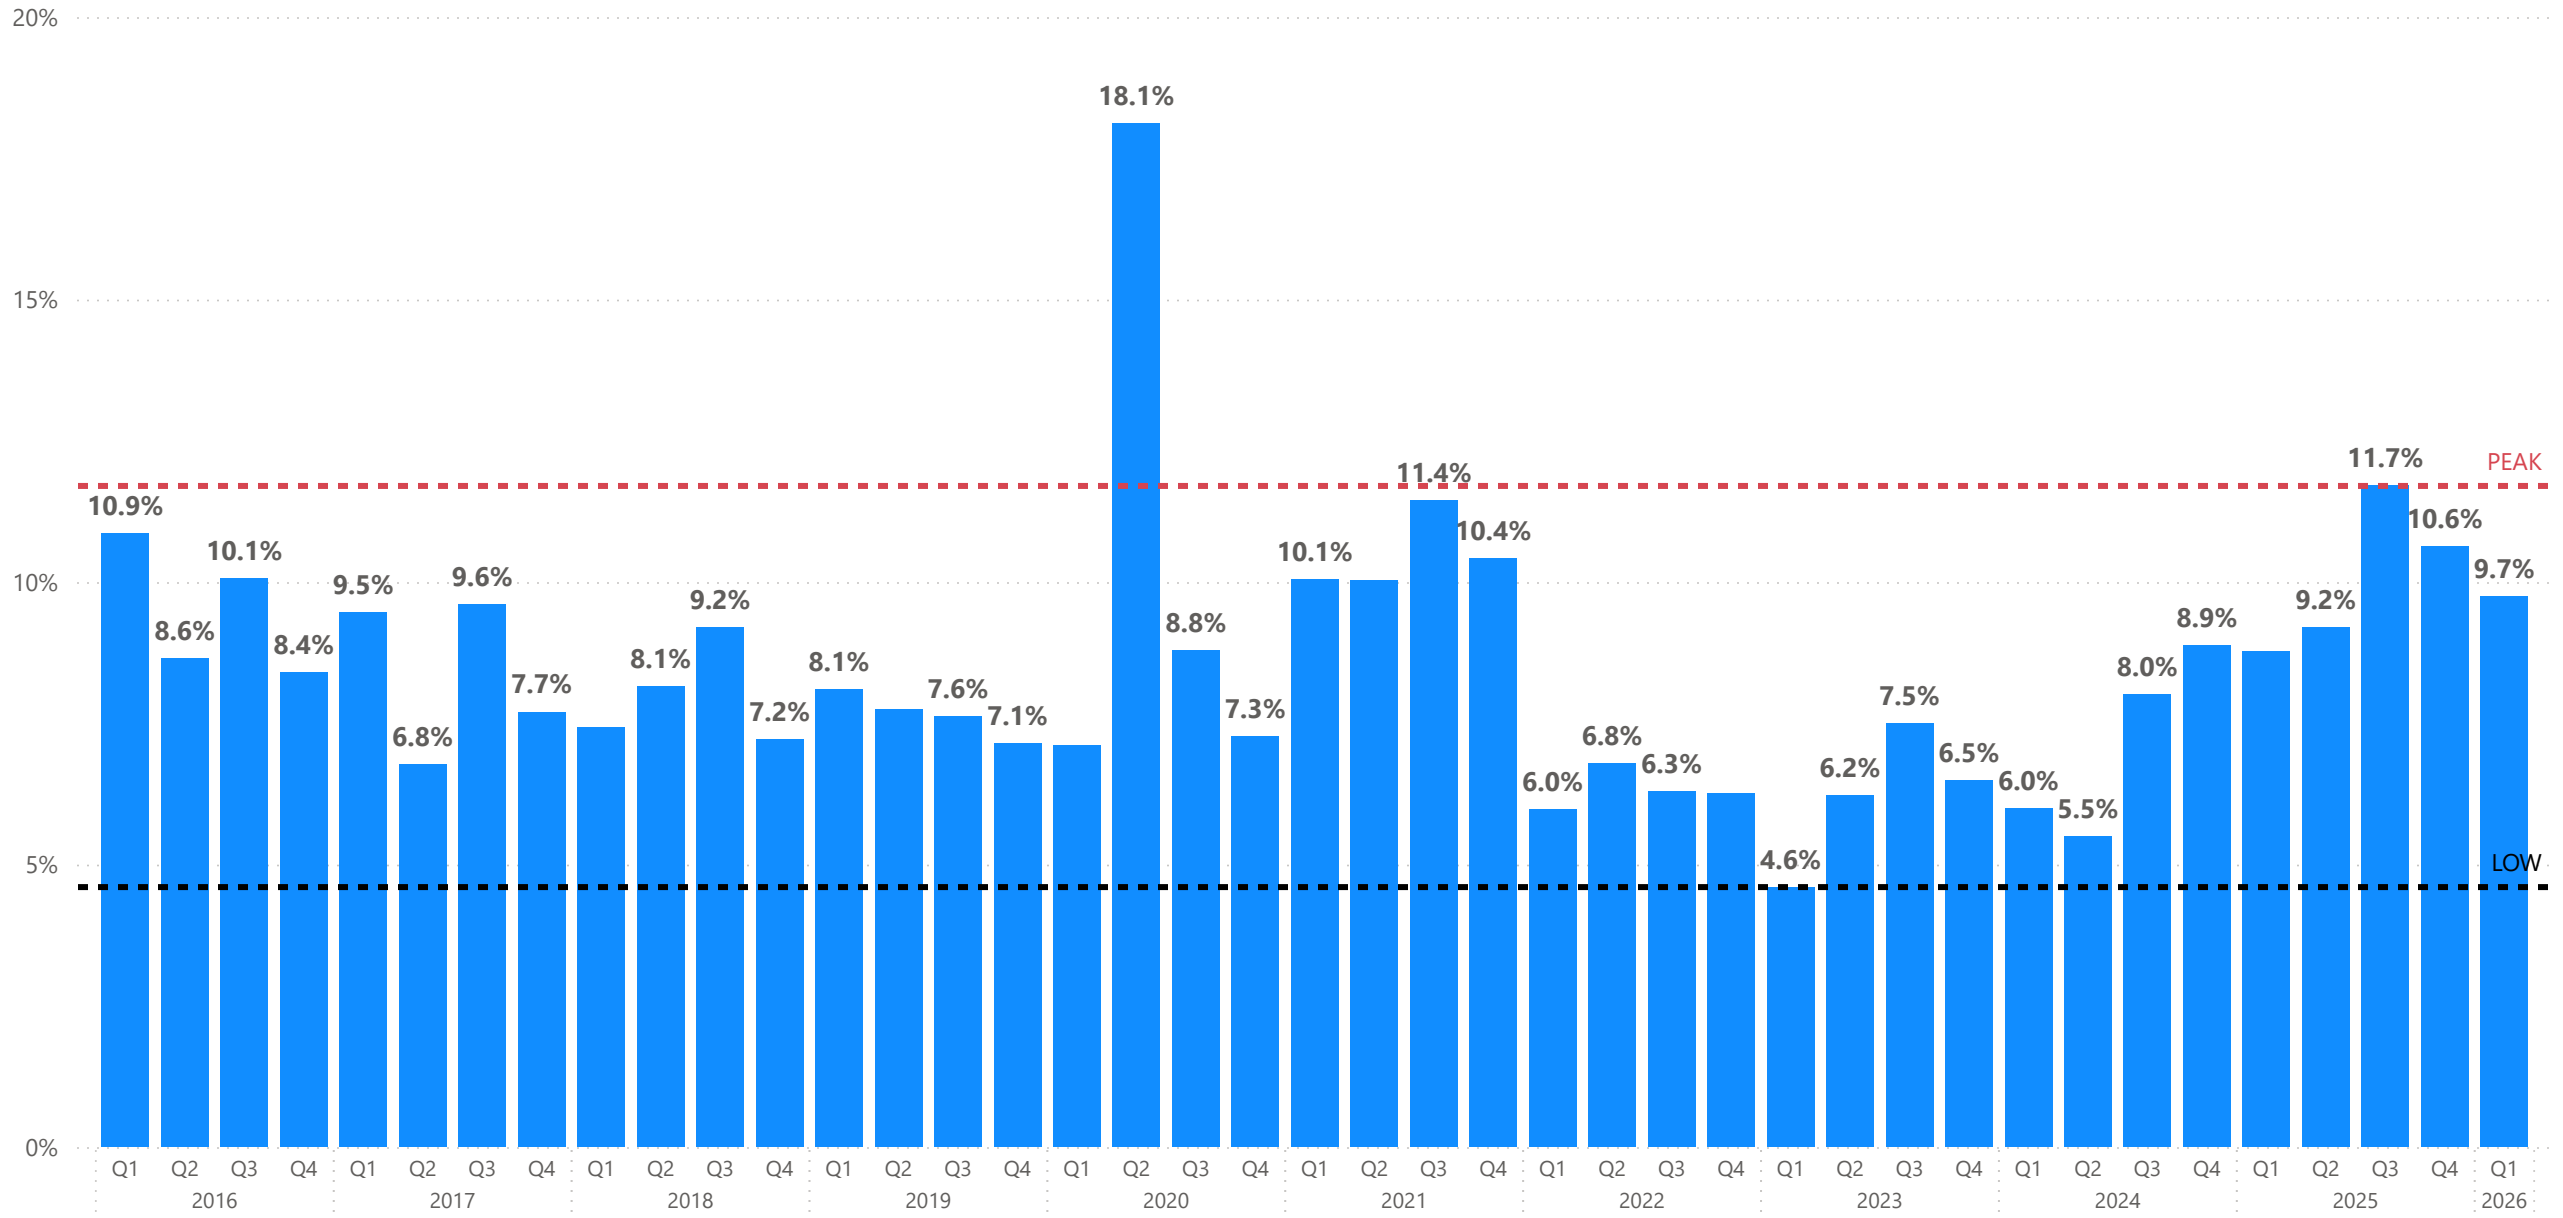

DOWN UNDER DIVE MARKET SHARE

DUD's share of reef trips has grown from ~5-6% pre-COVID to a consistent 7-8% post-COVID — a stronger relative position regardless of market conditions

Part Day Reef Trips as % of Total Reef Trips — Cairns

Part day dipped to a low of 4-6% in 2022-23 then climbed steadily, reaching a peak of 11.7% in Q3 2025

Source: GBRMPA Environmental Management Charge data

Total Cairns Reef Visitors

Combined full and part day visitors dropped 70% during COVID, recovering to ~75% of 2016 peak by 2024-25. 2026 reflects Q1 only

CAIRNS AIRPORT PASSENGER NUMBERS

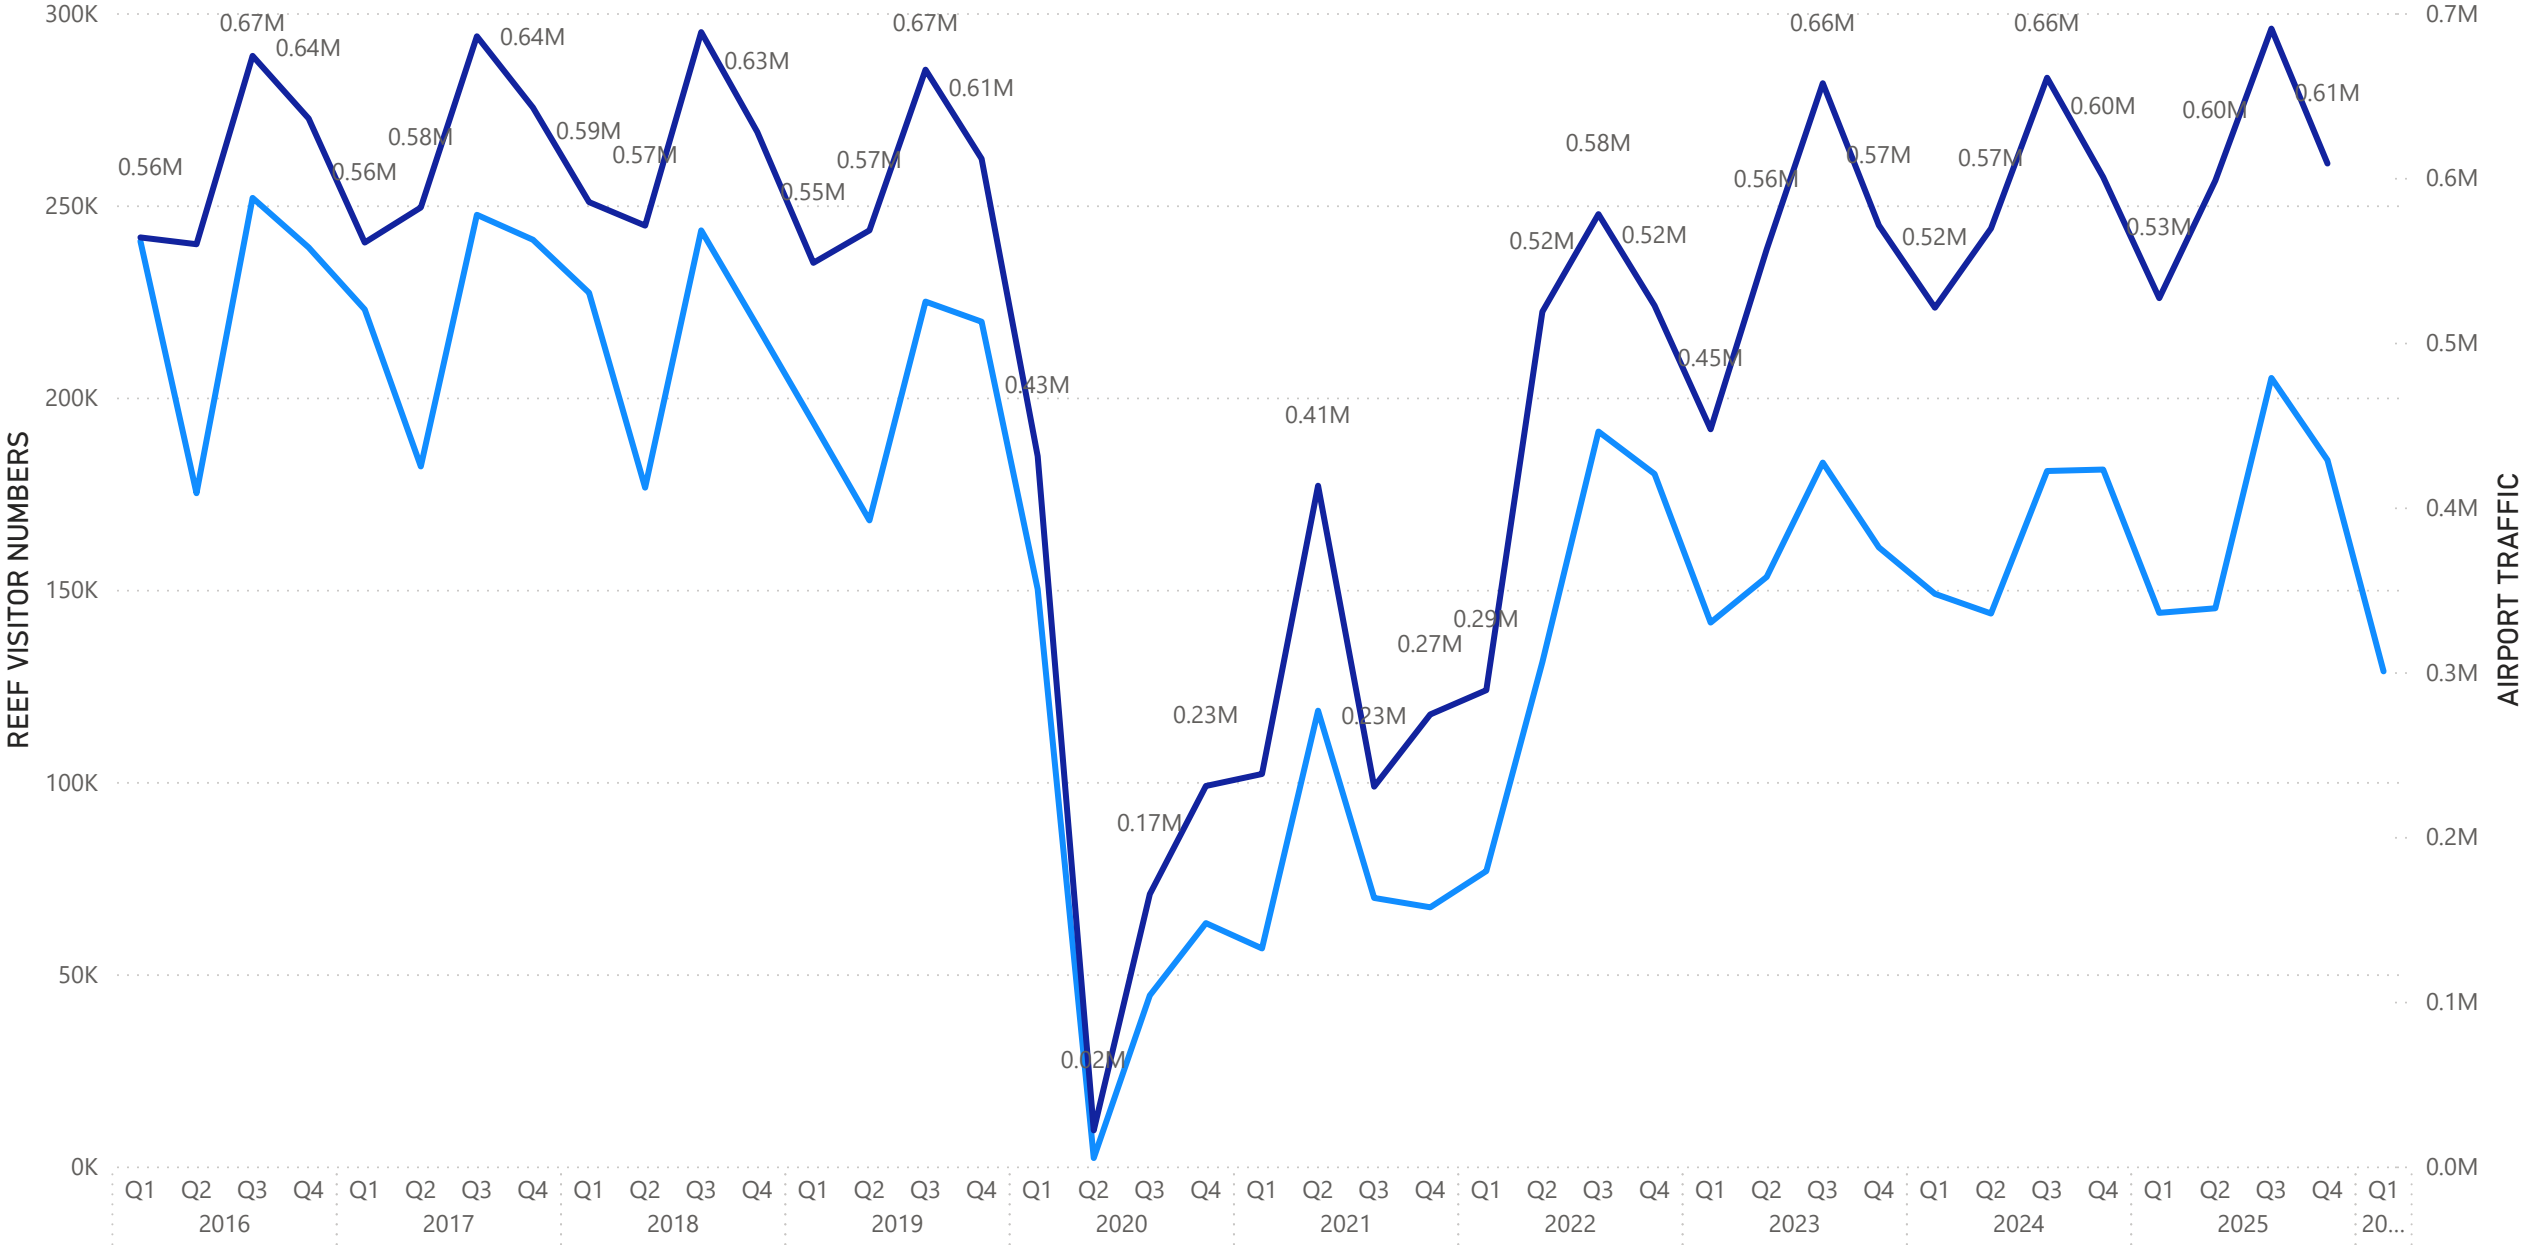

INTERNATIONAL TOTAL DOMESTIC

REEF VISITS vs AIRPORT TRAFFIC

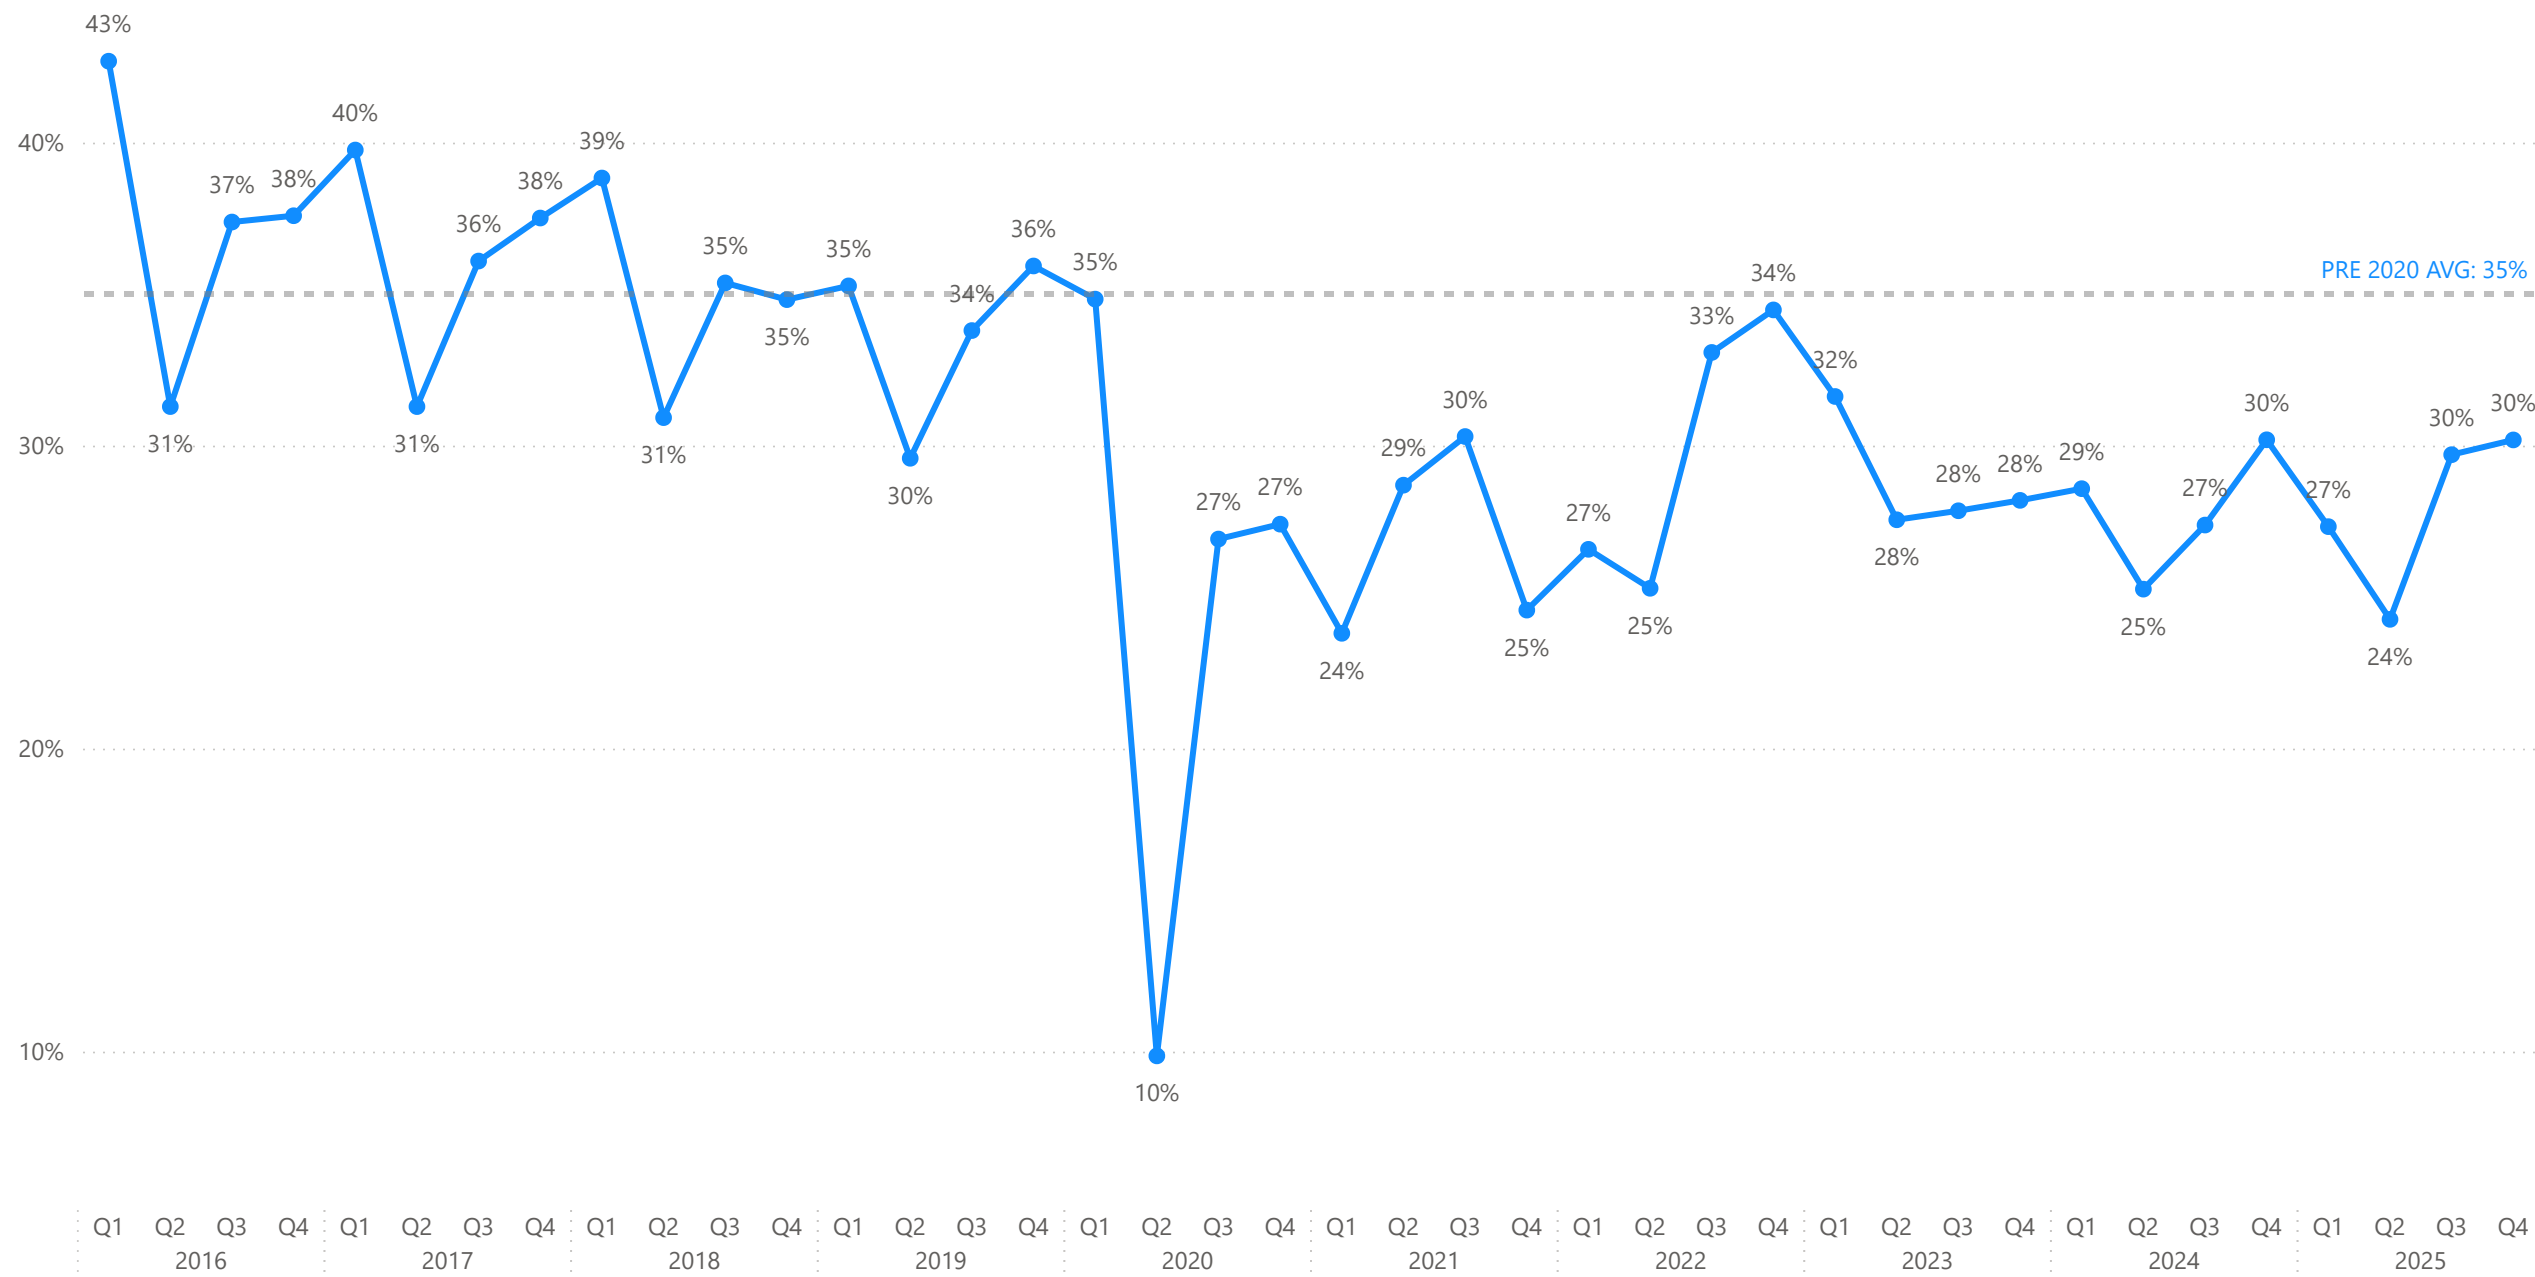

Airport traffic is back to pre covid levels — but reef visits remain ~20% below their pre-2020 peak

● REEF VISITOR NUMBERS ● AIRPORT TRAFFIC

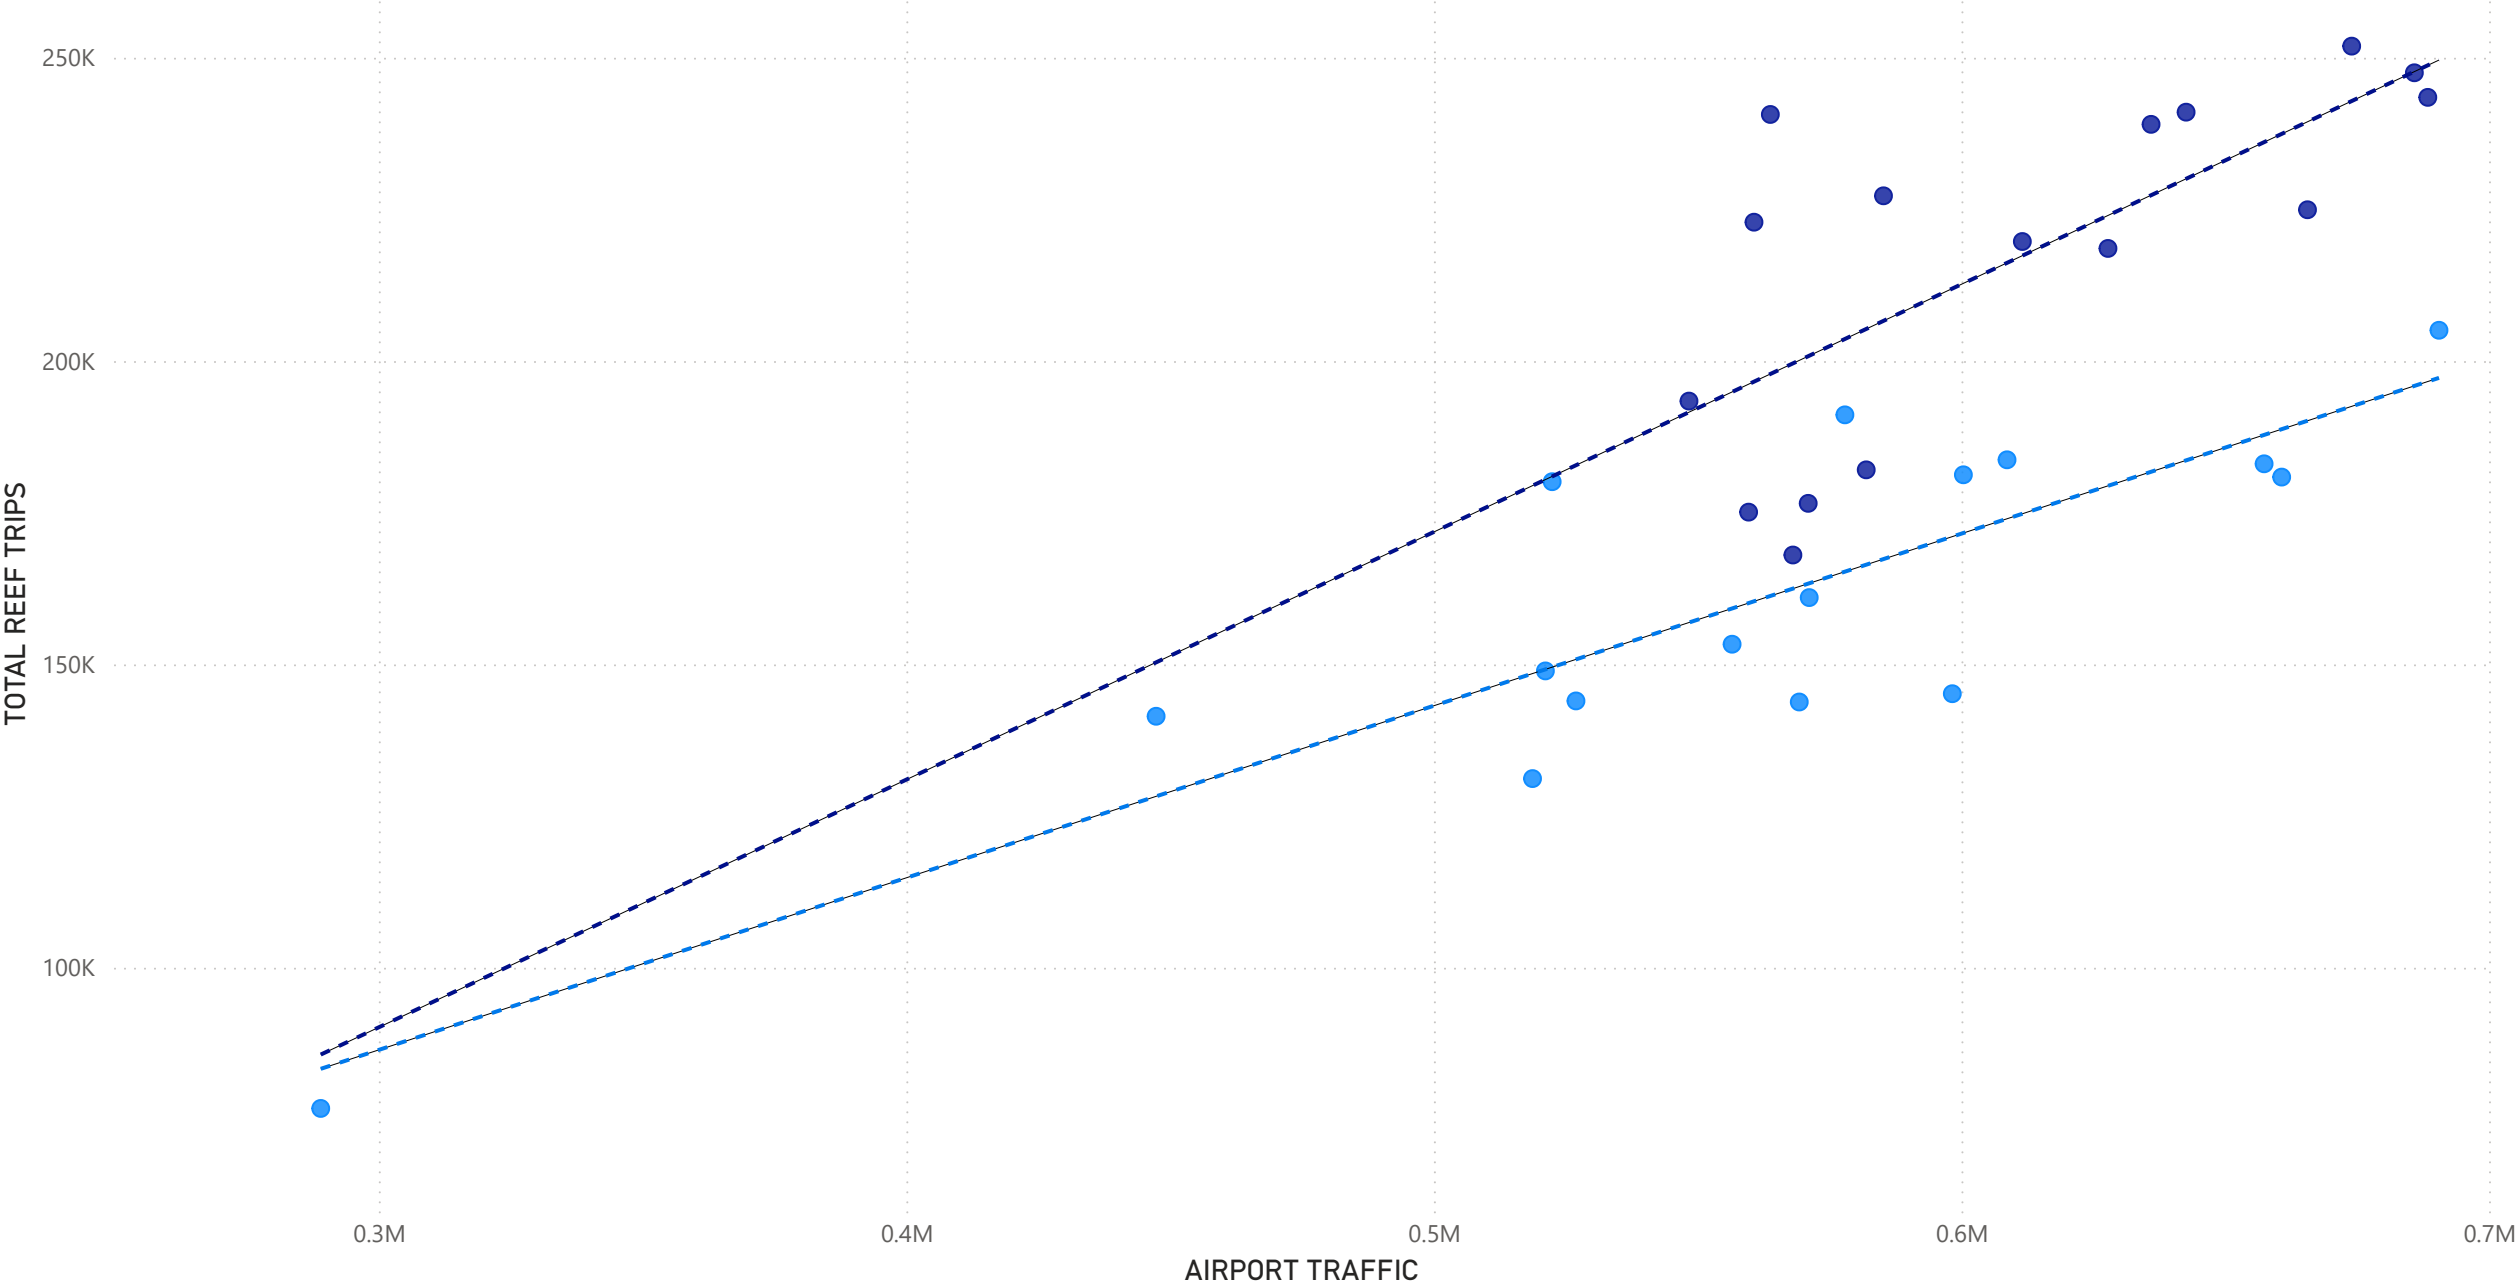

REEF CAPTURE RATE - SHARE OF CAIRNS ARRIVALS VISITING THE REEF

Share of Cairns airport arrivals taking a reef trip — down from ~35% (2016–2019) to ~28% since 2020, despite a full recovery in passenger numbers

Reef Visits vs Airport Arrivals — Pre vs Post COVID

Important information about this data

This data is updated biannually following receipt of the Environmental Management Charge returns from commercial tourist operations.

- The number of visitor days to the Marine Park is calculated at follows:
- **Full day visits:** a day trip of more than three hours.
- **Part day visits:**
 - a trip that is less than three hours.
 - The first day of a trip entering the Marine Park after 5pm
 - The last day of a trip leaving the Marine Park before 6am.
- **Exempt visits:** passengers who are not required to pay the Environmental Management Charge.
 - Overnight trips are recorded as multiple full days, for example, a stay of two days and one night is recorded as two full days.
 - Children less than 4 years of age
 - People who are engaged in the tourism industry who are visiting the Marine Park for trade familiarisation
 - Passengers for whom another operator has already paid EMC on that day
 - The fourth and subsequent days for passengers on extended charters.
- **Scenic flights:** passengers on sight-seeing flights.
- **Coral viewing:** a standalone activity involving visitors viewing marine life from a semi-submersible or glass bottom boat. Note: this does not include glass-bottomed and semi-submersible excursions which are ancillary to another tourist program.
- These graphs do not include transfer passengers (e.g. ferry passengers)
